PERSONAL

MISS LILLIAN TRUSCOTT was a passenger for Reno this morning. JAMES WOOD, the retired rancher of Smoky Valley, is spending a few days in Tonopah.

MR. and MRS. L. LATHROP motored in from Tule canyon last evening.

WARREN RICHARDSON was among the arrivals this morning from the coast.

ZEB KENDALL arrived today from San Francisco to look after his mining interests on the Divide.

W. C. WATERS, superintendent of the Tonopah Divide, left today for San Francisco.

L. L. PATRICK, of the West Divide, was a visitor from Goldfield today.

W. J. DOUGLASS left this morning for San Francisco, and will join his family at Capitola, where his son, Bobbie, is said to be making great progress toward recovery.

THOMAS F. DUNN and wife returned today from an extended trip to the east, where Mr. Dunn represented Nevada at the Chicago convention of the Elks.

MRS. J. R. ROBERTSON was a passenger today for Reno, where she goes to take care of her sister, Mrs. Robertson, who is dangerously ill. She was accompanied by Mrs. Robertson's little daughter.

W. H. HENCHMAN, assistant state engineer of the Tonopah & Tidewater, was over from Goldfield this afternoon for a short time.

MRS. REY PITTMAN will arrive tomorrow morning and will be taken to Mrs. Frank K. Pitman's during her stay in Tonopah.

METHE WOODS, of the brokerage firm of Wood & Bond, returned this morning from visiting the company's offices in Chicago.

Several carloads of ore were shipped last week from the Eureka district, 12 from the Ruby Hill, two from the Crown, two from the Holbrook and one each from the Standard and Silver Canyon. In addition to this six carloads of speiss was shipped to the Richmond Eureka from the Eureka Consolidated slag dumps.

The Prince is producing 1000 tons of ore from the bottom of the 1400-foot shaft where ore is being saved as \$200 a ton is being saved. Although this is the deepest shaft on the Prince, the mine has produced more than \$400,000, mostly from workings less than 300 feet deep. The ore is in position, a short distance apart and having the same general strike. The richer ore assays high in gold and silver.

Most of the ore is coming from the 1000-foot level, where several bodies of high-grade material have been opened in a drift into the ore body. The ore is being saved as \$200 a ton is being saved. Although this is the deepest shaft on the Prince, the mine has produced more than \$400,000, mostly from workings less than 300 feet deep. The ore is in position, a short distance apart and having the same general strike. The richer ore assays high in gold and silver.

The Eureka mine also is saving ore for shipment in the Mabel L. tunnel which has entered the Dead broke claim.

The main mine of the Uncle Sam Consolidated is being continued with two shifts of miners.

LIST OF UNCLAIMED LETTERS.

List of advertised letters remaining in the Tonopah postoffice for the week ending August 6, 1920.

When calling for these letters please state they are advertised. A fee of one cent will be charged for the following:

G. Anderson, J. F. Abbott, E. E. Betram, Albert Berg, Hans Bican, James Bunt, Michael Burnette, Mrs. E. G. Benning, May Brown, Mrs. E. H. Corbett, J. K. Cleaves, Persa Deane, E. E. Damon, E. Farrell, D. S. Freeman, P. H. Gordon, Curt Goldman, Oliver Mahey, E. N. Hutto, Clifford Hooper, Othens Koprinick, George Kern, Robert Laurine, F. B. Martinez, G. R. Millers, John Nalton, Adam O. J. O'Neill, Joe Peters, Krato Radjenovich, Peter Rose, C. J. Reynolds, Miss Evelyn Smith, C. Strand, J. C. Stewart, Sam Stoddard, William A. Sinclair, Steve Karsanick, Nick Stanich, Percy Train, Wallace Wiley, Rodney Wilson, W. Winkler, W. D. Wilkinson.

JAS. J. McQUILLAN, P. M.

NOTICE.

Local Engineers' Union No. 322, under the candidacy of W. H. Cochran for Constable.

HARRY BUTSON, Pres.

HOWARD BURR, Secy.

ELKO CAN GET ELK FROM MOUNTAIN RANGE.

The Elko Elk and Game club will secure a carload of elk next spring from the Jackson Hole country at no expense except transportation and placing the animals on the range. Mr. Mink, acting for the club, wrote for a few head of elk, and the reply came that not only could he get a few head, but as many as he could take care of.

The animals are gathered in February and March when they are down from the mountains and it is easiest to ship them to Tule and then haul them in crates to the Ruby mine, where they will be turned out to range.

AMUSEMENTS

RUSSELL'S LATEST IS GRIPPING DRAMA

An entirely new note in western motion pictures is struck in "Twins of Snake Creek," a William Fox production, with big, brawny William Russell as star, which is shown at the Butler theatre.

It is comparatively easy for a motion picture director to give an audience its fill of rapid movement, but Director Scott Dunlap in this picture has contrived to give dramatic force to each spectacular thrill.

William Russell, an actor to the finger tips, shines in such a play as this. His work in the role of Bill Lark, the man who by chance has given himself only five days to live, is a masterly performance.

"Twins" are the children of a never-do-well friend of Bill, and for their sake Bill risks his life. Unprotected, he faces his worst enemy and comes out unscathed. Holding the reins of the stage coach he goes into what appears to be the jaws of death, and defeats the band who he knows are waiting in ambush for him. The story bulges with powerful situations and romance. It is based upon the novel by Redwall Cullum, well known writer of western tales of adventurous life.

Louise Lovely, as leading woman, brings to her name, as usual.

SWEDEN STAYS WET

STOCKHOLM, July 27.—Prohibition is not making great headway in Sweden, judging from figures of membership of the various temperance organizations, which show that the organizations and societies lost last year over 10 percent of their members.

CANTALOUPE SEASON IS EARLY AT FALLON

Cantaloupes will commence to move out of the Newlands project within the next few days and will find a ready market in the centers of population in this state and on the coast.

Manager G. R. Ledy of the Church of Creamery, Inc., is making arrangements to handle small lots of cantaloupes for small growers and his market is already assured. He has placed an order for 100,000 wrappers and will shortly have the creamery building near the railroad track equipped as a cold storage plant for the housing of the melons. Fallon Standard.

DR. BROWNING INJURED WHEN TIRE EXPLODED

Dr. J. A. Browning is wearing a felt mask these days, due to an experience he had with an automobile tire. He was changing a tire and had just started to let out the air in the inflated tire, when his telephone rang. After answering the call he returned to finish the job, but forgot that he had failed to let out all the air and when he started to take the rim off the casing struck him in the face, breaking his nose and cutting one cheek so badly that it required several stitches to draw the wound together. Elko Free Press.

CANNOT FILL GRAPE ORDERS

(Correspondence of Associated Press)

WASHINGTON, Aug. 9.—When the nation went dry by federal amendment many grape growers thought they would be forced into some other line of business because of the subsequent cessation of wine production, but reports to the bureau of markets show that the demand for manufactured grape products now exceeds the supply.

The production of unfermented grape juice and of jams and jellies is utilizing an increasing tonnage of grapes each year, these reports state, and in not far distant future it is expected that the annual production of grapes will not meet the demand.

LAKE TAHOE WAS 100 FEET HIGHER IN PREHISTORIC DAYS

Lake Tahoe is often said to occupy an old volcanic crater. This is not a fact. The prehistoric Lake Tahoe was larger and deeper than the present lake, according to the United States geological survey. During the Pliocene epoch and the earlier part of the Pleistocene epoch its waters stood much higher than now, but in its overflow it has since cut through the lava that maintained it at that height. Distinct benches that mark the former higher levels of the lake stand about 100 feet above its present surface, but the waters doubtless once stood at even greater heights. At Tahoe City the most distinct of these old benches is a terrace that stands 35 to 40 feet above the level of the lake. It is on this ancient beach that the Tahoe tavern is built.—American Mine Reporter.

It is said that Koreans made gunpowder as far back as 200 B. C.

CLASSIFIED

FOR RENT—Two single furnished rooms for gentlemen. Inquire Frisco store. 1197 A11 31.

LOST—Bunch 4 keys, two of them safe deposit keys. Leave at Bonanza. Reward. 1195 A19 11.

ANNOUNCEMENT

We are going to move to the Crumley Block on September 1st. This move is necessary in order to provide better facilities for handling our rapidly growing automobile and tire business. We shall make a feature of the Brunswick Tires which we are handling with a guarantee that every tire sold must give satisfactory mileage to our customers. The Brunswick-Balke-Collender Co. are well able to manufacture tires equal to any, and we believe they are doing it. It must be understood that the Brunswick is not a cheap tire, but, on the other hand, is a high class article made from the best of materials by skilled workmen. When you become dissatisfied with your tire mileage try one. We still have a few tires that went through the flood which we are selling at 20 per cent reduction. These tires are not damaged, but the wrappers were destroyed and they must be sold to prevent deterioration. We have one crackerjack Chevrolet 490 for \$500.00. It's worth more money. Come in and look at it.
